## Patio Enclosures

Patio Enclosures shall be used for recreational outdoor living purposes and not as habitable rooms. Openings shall be permitted to be enclosed with insect screening, approved translucent or transparent plastic not more than 0.125 inch (3.2mm) in thickness, or glass conforming to the provisions of Section R308 Glazing of the 2010 California Residential Code, or any combination of the foregoing.

Emergency egress windows from sleeping rooms shall not exit into the enclosure.

Structures shall not exceed 12 feet in height. At least 65 percent of the area of the longer wall and one additional wall must be glazed or open area.

Required for permit issuance:

- Zone Clearance from Community Development
- 3 Sets of Plans providing Construction Details
- Fees Paid based on Square Footage
