FILL IN ALL BLANKS, IF NOT APPLICABLE, ENTER THE WORD "NONE".

This permit authorizes only that work described hereon. Neither the issuance of this permit, nor the compliance with the provisions hereof or with any conditions imposed by this permit shall relieve any person from responsibility for damage to other persons or property nor impose any liability upon the governing agency for damage to other persons or property. All attached addenda are a part of this permit. All modifications of this permit or of the approved grading plan must be approved by the governing agency. All work shall be done in accordance with "General Notes" on the cover sheet of the Grading Improvement Plans, per Dwg. #'s references above.

I hereby acknowledge that I have read this application and state that the above is correct, and that all excavation, grading and filling of land shall be in accordance with the approved plans, and that I am familiar with the applicable grading and stormwater quality management ordinances. In consideration of the City issuing this grading permit, the permittee agrees to comply with all provisions of this permit including the standard conditions (on the reverse side) and special conditions,

_____ attached hereto.

Permittee _____ Permit Issued By: _____

Signature _____ Date Permit Issued _____

Date Signed _____ Date Permit Expires _____

STANDARD CONDITIONS

1. That all work authorized under the permit will be completed within the time limit specified in the permit or any time extensions granted thereon and will be done in accordance with approved plans and in compliance with the terms and conditions of the grading to the satisfaction of the Assistant Director of Public Works/City Engineer and all of the provisions of the code, applicable laws, and ordinances.
2. The Security posted for Grading in connection with this project shall remain in full force and effect until one year after the final acceptance of the project by City Council or until one year after approval of "As-Built" drawings if no Council action is required for the project. During the one year after acceptance/approval, the permittee shall perform all maintenance and comply with all the requirements and conditions of the permit.
3. That in the event the permittee fails to comply with the provisions of the permit and all applicable laws, the surety will promptly complete the work to the satisfaction of the Assistant Director of Public Works/City Engineer. In the event said surety fails to promptly do so, the surety will pay to the City all costs and expenses incurred by said City in making the premises safe to the satisfaction of the Assistant Director of Public Works/ City Engineer.
4. Any deviation from the approval plans shall be submitted and approved through the Change Order process.
 - a. Major design changes shall be processed formally through the City Engineering Division.
 - b. Minor field adjustments shall be approved by a Public Works Inspector and shown on the "As-Built" drawings.
5. Development shall be undertaken in accordance with conditions and requirements of the Ventura County Stormwater Quality Management Program, National Pollutant Discharge Elimination System (NPDES) Permit. Stormwater Pollution Control Plan (SWPCP) shall identify potential pollutant sources that may affect the quality of discharges to Stormwater and shall include the design and placement of recommended the Best Management Practices (BMP) to effectively prohibit the entry of pollutants from the construction site into the storm drain system during construction.
6. The owner is responsible for the maintenance and operation of all private BMP improvements.
